ABOUT ME

A motivated Software Engineering undergraduate at the Informatics Institute of Technology with a strong academic background from Wesley College. Seeking an internship or junior developer role to apply and expand technical skills through hands-on industry experience. Brings one year of part-time experience at Elite Staffing Solutions, where strong communication, problem-solving, and time-management skills were developed in a fast-paced environment. Hardworking, adaptable, and eager to grow within the IT industry

EDUCATION

2025 Jan - Present

BEng (Hons) in Software Engineering

Informatics Institute of Technology

2010 - 2024 Jan

Wesley College

G.C.E Advanced Level Examination - 2023 (2024)

G.C.E Ordinary Level Examination - 2020 (2021)

PROJECTS

Securefy - Smart Locker Management System

Built an IoT-based smart locker system with secure QR access and a responsive web app, featuring real-time admin controls and emergency overrides.

Life on Land -Awareness Website

UI/UX Lead and core developer for a “Life on Land” awareness website, designing intuitive interfaces and building an accessible, engaging site structure.

Car Rental App - Figma

Designed an interactive UI prototype for a car rental application using Figma. Focused on user-friendly navigation and modern design principles

Personal Task Manager

Built a robust desktop CRUD application utilizing Object-Oriented Programming to decouple UI components from business logic.

ACHIEVEMENTS

- Recipient of two Merit Awards for Basketball (Under-20 Team), Wesley College.
- Recognized for performance and contribution to the school Under-20 basketball team.

WORK EXPERIENCE

Call Centre & Recruitment Coordinator

HASK Enterprises (outsourcing partner for Elite Staffing Solutions, Australia) | Sri Lanka | Dec 2024 - Present.

- Handled high-volume communications, maintained CRM data, and supported end-to-end recruitment in a fast-paced, target-driven environment.
